RENTAL AGREEMENT

Tenant _____ Owner _____

Address _____ Address _____

It has come to our attention that your tenant may be eligible to receive the benefit of a Federal Program to help save and conserve energy. The Delaware County Weatherization Program, a government funded organization and the Low-Income Energy Assistance Program will provide improvements to the premises. Caulking, weather stripping, insulation of the attic, venting, replacing panes of glass, hot water heater wrap and pipe wrap are available. A test will also be performed on the home's Gas or Oil heater to make sure it is operating efficiently.

The owner understands there is absolutely no charge for this service now or in the future. The owner further understands that neither the Agency nor its representatives shall be liable for any personal injury or for any damage to personal or real property resulting from their efforts to weatherize this home. An agreement is signed by both the owner and the tenant to insure that the rent shall not be raised for a period of twelve (12) months following the completion of the work because of the installation of energy conservation materials provided by the Weatherization Assistance Program. (Exception: increase in taxes may cause the rent to increase, not to exceed the cost of the tax increase). Also to prohibit the eviction of the client for a period of one year due to improvements, and as long as the client complies with all ongoing obligations and responsibilities owed to the property owner.

Please sign and return this form along with proof of ownership to the property to the above address as soon as possible. If you have any questions, please call us.
