

§ 280-24 Commercial and institutional establishments and community activities.

A.

Except as specifically provided in this article, all persons occupying commercial or institutional establishments or conducting community activities in the Borough of Lansdowne shall be subject to the same duties and requirements of this article as owners and occupiers of residential property.

B.

The Borough of Lansdowne shall not be responsible for the collection, transportation, processing or marketing of materials or contracting for the collection, transportation, processing or marketing of materials from commercial or institutional establishments or from community activities if at the date of enactment of this article the Borough of Lansdowne is not collecting or transferring waste from such establishments or activity.

C.

All persons owning or occupying commercial or institutional establishments or conducting community activities within the Borough of Lansdowne and all other persons not served by the collection system operated by the Borough of Lansdowne must establish a system for source separation, collection, transportation and recycling of high-grade office paper, cans and cardboard at each property within 30 days of the date of the Borough of Lansdowne's publication of an appropriate notice in a newspaper of general circulation within the Borough of Lansdowne. Arrangement for collection of designated recyclables for disposition herein shall be the responsibility of the person who generated the recyclables and/or the person contractually obligated to the generator to arrange for collection and disposal of its solid waste. Such arrangements may include, without limitation, direct marketing of recyclables, delivery to a dropoff, contracts with solid waste collectors/haulers for separate collection of any or all designated recyclables or contracts with other persons for separate collection of any or all designated recyclables. The system must include suitable containers for collecting and sorting materials at an easily accessible location and written instructions to the occupants concerning the use and availability of the system. All persons not served by the collection system operated by the Borough of Lansdowne must provide the Borough of Lansdowne, before January 20 of each year, a written report of the total weight of each kind of material recycled during the previous calendar year and any other relevant information required by the Borough of Lansdowne.
