## Certificate of Appropriateness Information

### WHAT IS THE HARB?

The Historical Architectural Review Board (HARB) is a public advisory body created by state and local laws. The HARB helps to protect the architectural and cultural heritage within the Lansdowne Local Historic Business District by considering the effects of proposed exterior changes to building and structures within the district and commenting on their appropriateness. The membership of the HARB includes a registered architect, a real estate broker, a member of the Building and Planning Department, residents of historic districts, and local citizens with knowledge and/or interest in historic preservation.

### WHAT THE HARB REVIEWS

The HARB reviews all proposed exterior changes to buildings and structures that are visible from a public street, sidewalk, or way within the district. The HARB reviews the proposal to determine whether it is appropriate to the individual property and the district as a whole in regard to architectural style, general design, arrangement, location, and materials. The types of work reviewed by the HARB include:

- Repairs and replacements
- Alterations and renovations
- Adaptive reuse
- Additions and new construction
- Demolition and building relocation
- Fences, walls, garden structures
- Signs and awnings

Once the HARB reviews the proposed changes for appropriateness, they forward their recommendation to the Borough Council for approval through the issuance of Certificate of Appropriateness.

Please note that the HARB review is necessary but not sufficient for the granting of a building permit. Each project may also be subject to Borough review for compliance with zoning, building, and safety codes. The applicant must obtain a Certificate of Appropriateness (COA) as well as all necessary permits prior to proceeding with any work.

### WHAT THE HARB DOES NOT REVIEW

The HARB does not review any interior changes unless they affect the exterior appearance of the building. The HARB also does not review paint colors when the proposed work is limited to re-painting. Contact the Borough Code Enforcement Department for assistance at (610) 623-7300 x210.

### TIMING FOR REVIEWS

Typically, a minimum of three to four weeks is required from the submission date of the COA application to the issuing of a certificate of appropriateness. If the application is incomplete or the HARB requests a change this process could take longer. Include all required materials with a complete application to expedite the review process. Contact the Borough Code Enforcement Department for assistance at (610) 623-7300 x210.

### TERMINOLOGY

Terminology utilized in the COA application:

- *Adaptive reuse*: change an existing building to accommodate a new function
- *Addition*: increase existing building or structure by building outside of existing walls and/or roof
- *Alteration*: physical change to a building or structure
- *Demolition*: intentional destruction of all or part of a building or structure
- *Feature*: portion or element of a building or structure
- *Fenestration*: arrangement of windows on a façade
- *New construction*: complete new structure or building
- *Repair*: fix a deteriorated part of a building or structure
- *Replace in-kind*: match the original feature exactly including original material, scale, size, finish, detailing, texture
- *Replace with new*: does not match original exactly

# Certificate of Appropriateness Information

## REVIEW SCHEDULE

To have your Certificate of Appropriateness (COA) application reviewed by HARB, it must be submitted with the appropriate materials to the Borough Code Enforcement Department by 4:30 pm ten (10) calendar days prior to the HARB meeting at which the application is to be reviewed. HARB meetings typically occur the \_\_\_\_\_ of each month. Please call (610) 623-7300 x210 to confirm the next meeting date.

The date of the HARB meeting at which this application will be considered is at \_\_\_\_\_ pm on \_\_\_\_\_. It is highly recommended that the applicant, or a project representative, attend the meeting located in the second floor Council Chambers. At the meeting, the application will be either recommended for approval with or without conditions, tabled pending additional information, or recommended for disapproval.

The HARB's recommendation about the COA application then becomes an agenda item for consideration at the next scheduled Borough Council meeting scheduled for Wednesday, \_\_\_\_\_ at 7:30 pm in the second floor Council Chambers. Attendance at this meeting is optional. Applicants do not typically attend the meeting if the HARB recommendation is acceptable.

If approved by the Council at their meeting, the Code Enforcement Department will issue the certificate of appropriateness if all conditions are met. The applicant can then obtain a building permit, provided the application complies with all other Borough codes.

If the Borough Council denies an application, its decision can be appealed to the Delaware County Court of Common Pleas within thirty (30) days following the date of the decision.

The Code Enforcement Department will review all work for compliance with the approved COA. If changes are proposed after approval for a COA, please contact the Code Enforcement Department at (610) 623-7300 x210 to determine whether additional reviews may be required.

Completed work that is not in compliance with the approved COA may be subject to fines and possible removal.

## APPLICATION CHECKLISTS

The HARB must have all required information to review an application for a COA eight (8) calendar days prior to the meeting date. If all required information is not submitted the application may be tabled until the information is received.

### Repairs and Replacements

- 2 copies Certificate of Appropriateness Application
- Historic District Map with building location circled
- 4"x6" (or larger) labeled photographs showing all public views of building or structure
- Samples or catalogue cuts of materials to be used.
- Any additional information required by the HARB after an initial consultation or review

### Renovations, Alterations, Additions, New

#### Construction, and demolition

- 2 copies Certificate of Appropriateness Application
- Historic District Map with building location circled
- 4"x6" (or larger) labeled photographs showing:
  - a. all sides of existing building and structure
  - b. site surrounding existing building and structure
  - c. adjacent sites, buildings, structures including adjacent properties and across streets or ways
- Scaled drawings indicating all proposed changes and notations for new materials:
  - a. site plan including adjacent sites, buildings
  - b. floor plans illustrating changes (at 1/4" = 1'-0")
  - c. all elevations illustrating changes (at 1/4" = 1'-0")
  - d. details of new exterior elements (i.e. cornices)
- Samples or catalogue cuts of materials to be used.
- Any additional information required by the HARB after an initial consultation or review

### Signs and Awnings

- 2 copies Certificate of Appropriateness Application
- Historic District Map with building location circled
- 4"x6" (or larger) labeled photographs showing:
  - a. all public views of the existing buildings
  - b. the existing building and adjacent buildings
- 2 copies of scaled drawings indicating:
  - a. façade elevation with proposed sign or awning with overall storefront wall width notated
  - b. elevation of sign or awning with letter style, logo and layout with detailed dimensions
  - c. detail of attachment to building
  - d. detail of illumination (if applicable)
  - e. detail of edge treatment (if exposed)
- Samples of materials and colors to be used
- Samples of letter size and name of style to be used
- Any additional information required by the HARB after an initial consultation or review
